Version Two of Award-Winning Lifeboat Data Rescue Launched

Innovative Data Recovery Improved for End User and Small Business

FOR IMMEDIATE RELEASE

The amazing data recovery product *Lifeboat Data Rescue* has been released in a more user friendly version, easier to download and improved for small business users. *Lifeboat*, which pulls data through broken Windows systems even when no back up has been done, is now even faster and easier to set up.

"We have listened to feedback from our customers and made our product even better than when first released," said CEO Judi Tyabji Wilson. "We are sure people will be very pleased with the new product."

Lifeboat Data Rescue is quickly becoming the preferred software for fast and efficient data recovery when Windows stops functioning. The software was recently awarded the Tucows Editors Choice Award, and has received numerous five star reviews.

"This new version of Lifeboat complements our full range of data management products," said Jonathan Lyster, Chief Technology Officer for Tugboat Enterprises Ltd. "These include *Lifeboat Data Rescue V.2*, *Nauticus Deep Data Storage*, *Coracle Data Transfer*, *Dockspace Webhosting*, and freeware *The Hook*."

Tugboat Enterprises Ltd is a private software development and publishing company that can be seen on the Genesis Exchange: www.GenesisExchange.com

Industry reviews of Lifeboat can be seen at www.pcnet-online.com/index.html and www.kickstartnews.com/reviews/utilities/lifeboat_1.html

TUCOWS Must Have Applications - Lifeboat by Dr. File Finder™

Lifeboat saved me hours of work.... The Lifeboat Data Rescue System is brilliantly simple... Lifeboat can save your files even if the operating system has failed! I haven't seen another program that can make that claim... Lifeboat, by Tugboat Enterprises, Ltd., is in my opinion a program that should be included with every computer... Because you never know what will trigger the crash... Lifeboat ... (has) become what I consider to be a true must have application!

If you don't buy the program now, at least bookmark this page in case you need Lifeboat in the future. The builders of the Titanic said it was unsinkable and didn't install enough lifeboats. They were wrong and it cost the passengers everything. If you have a crash, make sure you have a Lifeboat!

"If you have any concerns about your data, even if you do backups, you'll want to check out Lifeboat. It's unique and by far the best alternative to recovering data from a damaged drive... Give it a try, think you'll be amazed at how easy it is to set up and use." Don Watkins, *PC Net*, www.pcnet-online.com

"We recently reviewed the *Lifeboat* data recovery software. It's a terrific utility that everyone – and I do mean *everyone* – should have on a CD that sitting next to their Windows PC." Howard Carson, Managing Editor, *Kickstartnews* www.kickstartnews.com
