Selkie Rescue Data Recovery from Tugboat Enterprises Keeps on Winning…!

Prominent Online Review from PC Net-Online

February 15th 2007

Adding to its recent five star review from Tucows, this world-leading Selkie Rescue Data Recovery software has made it into PCNet-Online's favourite technology of 2006 round-up. This innovative piece of voodoo magic extracts data files from a dead computer – files which otherwise would be lost forever, or which you would need to spend a small fortune to have recovered by a specialist.

Don Watkins writes: "*Selkie* (nee *Lifeboat*) is one amazing piece of software. You boot the dead machine from the Selkie CD-ROM and it becomes a file server. Another computer on the network can access the hard drive if there are any areas accessible (obviously it doesn't work if the drive won't spin) and pull off any files that haven't been backed up. Amazing stuff."

Don Watkins recommends – *get Selkie before you need it, and sleep easy.* Read Don Watkins' full assessment, then buy *Selkie Rescue* from www.tugboatenterprises.com and see what voodoo magic can do.

Selkie Rescue, created and owned by Tugboat Enterprises Ltd, solves a major problem faced by more than 1 billion owners of PCs and laptops - lost data due to computer crashes from viruses or bad software. Instead of sending your computer or laptop to a repair centre and losing significant time & money, *Selkie* recovers your data within 10 minutes, using 5 mouse clicks or keystrokes - all for $99.99. *Selkie Rescue Data Recovery* does not require Windows to be functional in order to recover data. It is fast and very simple to use; Tucows has labeled it a "must have application".

"*Selkie Rescue Data Recovery* is a valuable tool that frankly we believe should be included with every computer sold with a Windows application," said Vice President Sales Nathan Potechin. "It's not something you will need everyday, but when your system fails, and statistically we know at some point, usually when you need it most, it will, then you will be thankful you have Selkie Rescue. It is one of those critical programs that can save you a lot."

Selkie Rescue is available at www.tugboatenterprises.com for US$99.99. Enterprise and bulk licensing is available by contacting Nathan Potechin at 1-888-688-9199 or www.tugboatenterprises.com/contact.php

More than a billion owners of PCs and laptops face the same problem every year — catastrophic desktop and laptop PC computer crashes. When crashes happen, no matter what the cause, there is only one important priority — recovering the data and files stored on a desktop or laptop PC that is suddenly inaccessible. *Selkie Rescue* is a data recovery and disaster recovery utility for Windows desktop and laptop PCs. There is nothing more important than the data created on a daily basis at home or at work. When the operating system won't boot there's only one priority. Documents, spreadsheets, databases, graphics, photos, music, videos, web pages, text files and everything else has to be rescued so that life and business can continue.

Selkie Rescue is available for US$99.99. Enterprise and bulk licensing is available by contacting Nathan Potechin, Vice President, Sales at http://www.tugboatenterprises.com/contact.php.

Selkie Rescue System Requirements
Any Pentium or equivalent CPU (Intel, AMD) capable of running Windows 95 through Vista; 16MB available system RAM; VGA graphics chip and color monitor; CD-R drive and blank recordable CD required to burn the Selkie Rescue CD; any active network connected to the PC being rescued.
