Data Rescue Program is “Heaven-Sent”

Globe and Mail reviews *Selkie Rescue Data Recovery*

For Immediate Release – Tugboat Enterprises has earned a favourable review of their flagship product, *Selkie Rescue Data Recovery*, in the technology section of the Globe and Mail (February 7, 2008). In the review,

<http://www.theglobeandmail.com/servlet/story/RTGAM.20080206.wgkapica0207/BNStory/Technology/home>, *Selkie Rescue Data Recovery* 3.1.0 is identified as “an essential tool for anyone with two or more networked computers, or one computer with a USB-connected drive.”

Reviewer Jack Kapica describes the product as “heaven-sent” for people who are trying to retrieve data from a computer that Windows cannot access. He recognizes that, “This is a very simple way of recovering data for the non-technical mind, and even includes the ever-comforting phrase ‘Don't panic!’ when it starts.”

Selkie Rescue Data Recovery can bypass a non-functioning Windows operating system to recover data files with only three key strokes. It has received several industry awards and international acclaim and is quickly becoming the preferred software for fast, easy, secure data recovery when Windows stops functioning. A major upgrade to the product will take *Selkie* to version 3.5.0, scheduled for release next week.

Selkie Rescue is a great thing to have on hand when the inevitable happens. Kapica recommends buying the program to keep in your software toolkit: “There's no installation; keep this on your shelf and use it when you need it, or take it to a friend's computer where you will gain new respect for your magical powers.”

Tugboat Enterprises Ltd. is a software development company that specializes in file transfer and data recovery software. Other products by Tugboat Enterprises include *Selkie Quick File Transfer*, *Selkie Photo Recovery*, *Selkie Music Recovery*, and *Selkie Email Recovery* (the latter two slated for release in mid-February).
