

LogicBright CRM makes it easier to sell more efficiently

Use LogicBright CRM to keep track of new sales opportunities, organize quotes, attach documents to a client's record and remind you that an activity is due. By having all of your info in one easy-to-use system, you can prioritize work, follow-up effectively and eliminate efforts.

Over \$3,000 saved over 3 years!

Based on the average cost per month over a 3-year-span vs. salesforce.com and Sugar CRM

Rich features empower your employees

- ▶ **Direct-Search:** This is a unique feature that validates your data as you type to avoid mistypes and duplicate data. It also makes entering data such as contact names, account names, leads and addresses faster and easier.
- ▶ **Email alerts and notifications:** You can set up email alerts for tasks and opportunities to ensure that you keep in touch with your clients on time, every time.
- ▶ **Custom field names:** Add unlimited custom fields in your lead, account, contact, ToDo, and opportunity records. Custom fields provide you the ability to track critical information that your business needs as well as ensuring the correct data is entered.
- ▶ **Notes & files:** Every contact, account, opportunity and ToDo that is entered can have notes and files attached to the record. There is no limit to the number of notes you can write and with 100Mb of disk space per user, and the option to upgrade to 10Gb, you'll never have to worry about running out of space.

Only \$20/mo per user

- No minimum amount of users
- No software to update or install
- Simple and effective to use
- Designed for small businesses
- Inexpensive and low-up front cost
- Great support and tutorials
- Easily import existing data
- 100Mb storage per user account
- No gimmicks, straightforward pricing

Importing Existing Data

LogicBright CRM is very flexible when it comes to importing your data. We currently support importing from ACT! and Outlook. We also provide free Excel templates that will allow you to select data from other sources.

About LogicBright

LogicBright is a product of Tekniq Data Corporation. Tekniq Data is a leader in networking and software that has been working with small businesses since 1991. Tekniq Data created LogicBright CRM for small businesses (under 50 users) that do not have the need or capital to use an enterprise-level CRM product.
