

Fast Fact Sheet

Founded

1991

Overview

Archive Systems, Inc (ASI) has been successfully serving the needs of world-class, global corporations for more than 15 years. ASI's strategic virtualization platform provides organizations with improved controls and efficiencies, as well as the flexibility to outsource back office business processes.

ASI enjoys the backing of premier institutional investors including The Carlyle Group, a global private equity firm with \$58.5 billion under management, and Edison Venture Fund, one of the most successful investors in later stage technology companies in the Middle Atlantic region.

ASI's clients are some of the largest companies in the world, including CIT Group, Avon Products, Johnson & Johnson, and Mercedes-Benz North America. ASI has experienced strong revenue growth. Over 200 employees strong, ASI is well positioned to provide superior products and service to our growing client base of more than 1,000 companies.
