「Chanbara Junkies」 is an exhilarating action game in which you take out enemies with a sword.

■ Game system

The controls are instinctual and simple.

Just slide your finger on the touch screen in the direction you want to swing your sword.

Anyone can easily enjoy the feeling of cutting down one enemy after another.

There is a boss character waiting at the end of each stage, and once the boss character's energy has decreased to a certain level, you can slide your finger in the way displayed at the top of the screen to perform a finishing move.

■ World

「Chanbara Junkies」 is set against a backdrop of a mix of classical Japanese culture and modern day Japanese culture.

The main character, a gang member named YAMATO, must fight off the police and yakuza who come for him.

■ Visual

All characters in the game are drawn in the traditional Japanese sumi-e style.

It is a charm that CG is not expressible.
