

Looking for Great Healthcare?

"The doctor will see you now."

Dermatology & Cosmetic Specialists

Our dermatology practice, Dermatology and Cosmetic Specialists, is a full-service dermatology group comprised of three board-certified dermatologists and a physician assistant. Our multi-faceted practice focuses on three core components of dermatology: general dermatology, cosmetic dermatology and dermatological surgery.

In the area of general dermatology, we focus on the management of benign and malignant disorders such as eczema, rash, topical allergies, rosacea, skin infections and acne.

Our cosmetic dermatology practice provides non-invasive procedures in the safe environment of a medical facility. We offer chemical peels, microdermabrasion, Botox®, laser hair removal, sclerotherapy, Restylane® and collagen injections.

Dermatological surgery can include minor removal of moles, in addition to the more specialized surgical removals of melanoma, basal cell carcinoma and squamous cell carcinoma. Specifically, Mohs micrographic surgery is a precise method for removing skin cancer that offers the highest potential for recovery. In Mohs surgery, the physician is able to trace and remove the skin cancer down to its roots, while leaving healthy tissue intact and unharmed. Mohs offers the highest potential for complete removal of the cancer and minimizes the chance of re-growth. Mohs surgery is typically used to treat basal cell and squamous cell carcinoma. All of our dermatologic surgeries are done as out-patient procedures in our medical office.

Dermatology services are available at the following locations:

- ▼ **919 Main Street**
Dyer, IN • 219.934.2495
- ▼ **1946 - 45th Street**
Munster, IN • 219.924.5850
