

**Jaideep Billa**  
EVP, FT Grid

As Executive Vice President, FT GRID, Jaideep is responsible for building out the global footprint of this new business worldwide for Polaris software. As member of board of Adrenalin eSystems ltd. and IdenTrust inc. he also helps drive synergies across the two companies to realize the FT GRID strategy.

Jaideep Billa has twenty five year of experience in the financial technology business and he has been at Polaris from the time it was a 15 million dollar company. Prior to Polaris, Jaideep has worked with TCS, NCR and Digital. His in-depth knowledge in the use of technology to build differentiated processes and agile businesses has seen him architect and anchor the Product Leadership Council for Polaris Software. In his role as CIO for Polaris, he spearheaded the Smart-Build initiative of Polaris, an exceptional method of marshaling service components to build agile-businesses. As part of his significant contribution during his tenure as Advisor to CEO in Polaris, Jaideep co-authored a book on COPARIS, the company's proprietary Application Efficiency Framework.

Jaideep holds a Bachelor of Computer Science degree from IIT Kanpur, India, and an MBA from IIM, Calcutta, India.
