EARTH FRIENDLY APARTMENTS  
**LIVEKORMAN**

**Carpet**

- SmartStrand® with DuPont™ Sorona® polymer contains ingredients made from corn sugar with 37 percent of the carpet fiber from renewably sourced ingredients replacing petroleum.

**Custom Engineered Wood Flooring**

- Contains 74% pre-consumer<sup>1</sup> recycled wood from renewable, fast-growing U.S. based southern pine that would have been thrown away, so the rainforest is protected and U.S. manufacturing reduces the carbon footprint.

**Paint**

- Zero VOC paint contains 0% volatile organic compounds which contribute to smog.

**Tile**

- Contains a combined 37.4% pre-consumer<sup>1</sup> and post-consumer<sup>2</sup> recycled material content.

**Dual flush toilets**

- High efficiency toilet (HET) uses no more than 1.6 gallons per flush, saving 4,000 gallons of water on average annually.

**Low-flow showerheads**

- Reduces water consumption by as much as 50% and the energy cost of heating the water by as much as 50%.

**Cabinets**

- Regionally sourced FSC Certified wood with 100% recycled pre-consumer<sup>1</sup> material.

**Counter**

- Contains recycled material and no urea-formaldehyde.

**Backsplash**

- Stainless steel containing recycled material.

**Energy Star rated appliances**

- Energy efficient appliances result in utility bill savings.

<sup>1</sup>Pre-consumer materials are generated by manufacturers and would have been thrown away (scrap, trimmings and other by-products)

<sup>2</sup>Post-consumer materials are end products that have completed their life cycles as a consumer items and would have been thrown away (office paper, cardboard, aluminum cans, plastics and metals).
