The Itsy Bitsy Ritzy Shop Has Big Plans For Small Space Living New Online Store Launches A Stylish Furniture Line Made In America That Fits Any Little Place

Silvermine, Connecticut, October 11 - The Itsy Bitsy Ritzy Shop has launched an online store featuring furniture and accessories designed for small spaces. The IBRshop is delivering high quality, handmade furniture that makes the world a more beautiful place, one small room at a time.

Living Spaces Are Shrinking. The trend is clear. People are living in smaller spaces with a move to cities, apartments, condos and smaller homes. The era of the McMansion is over, yet most furniture manufacturers continue to make grossly oversized pieces overseas using a model that might be as outdated as the big box furniture store itself.

The Itsy Bitsy Ritzy Shop Adds Panache And Utility To Small Space Living. Occupying a smaller space should not mean sacrificing beauty, elegance or style. Both IBRshop lines, [Classic and Modern](#) have a great look, a modest footprint and designs that multi-task just like we all do. IBRshop furniture fits any room, can be used for multiple purposes and usually has storage built-in.

IBRshop hardwood and upholstered furniture is hand made in America using the finest materials and craftsmanship. This means all the quality of made-to-order furniture without having to pay exorbitant made-to-order prices.

The Itsy Bitsy Ritzy Shop offers a great way to buy turn-key design assembled by a professional interior designer. "People hire me for my design expertise to produce beautifully coordinated spaces. In developing the IBRshop I created four unique Collections: [Manhattan](#), [Nantucket](#), [Bel Air](#) and [Aspen](#). Each Collection has a unique personality and includes floor plans, [Look Books](#) and [Designer Notes](#), with coordinating fabrics, accessories and paint colors. This makes it easier for people to create spaces they love," said [Marcia Harris](#) Co-Founder and an Interior Designer. She added: "Surrounding yourself with luxury in a small space is important. It's the quality of the environment, not the size of the room that counts."

The Itsy Bitsy Ritzy Shop is delivering big ideas for small spaces. Visit the website today at www.ibrshop.com.
