

Embed 3D Video in Page Flip eBook

Watch pop-up video in 360 degree via big screen

3DPageFlip

Slide Master

- We are used to watch video on a screen that never imagine something has been created to break the normal vision for video! In [3D PageFlip Professional](#) (version 1.5.3+), you are allowed to inserted video in 3D eBook! More and more, you can watch this embedded video in pop-up 3D space once you play it! How this comes? A simple setting in Page Editor! Let's follow the steps to view how to create exciting 3D video in page turning book!

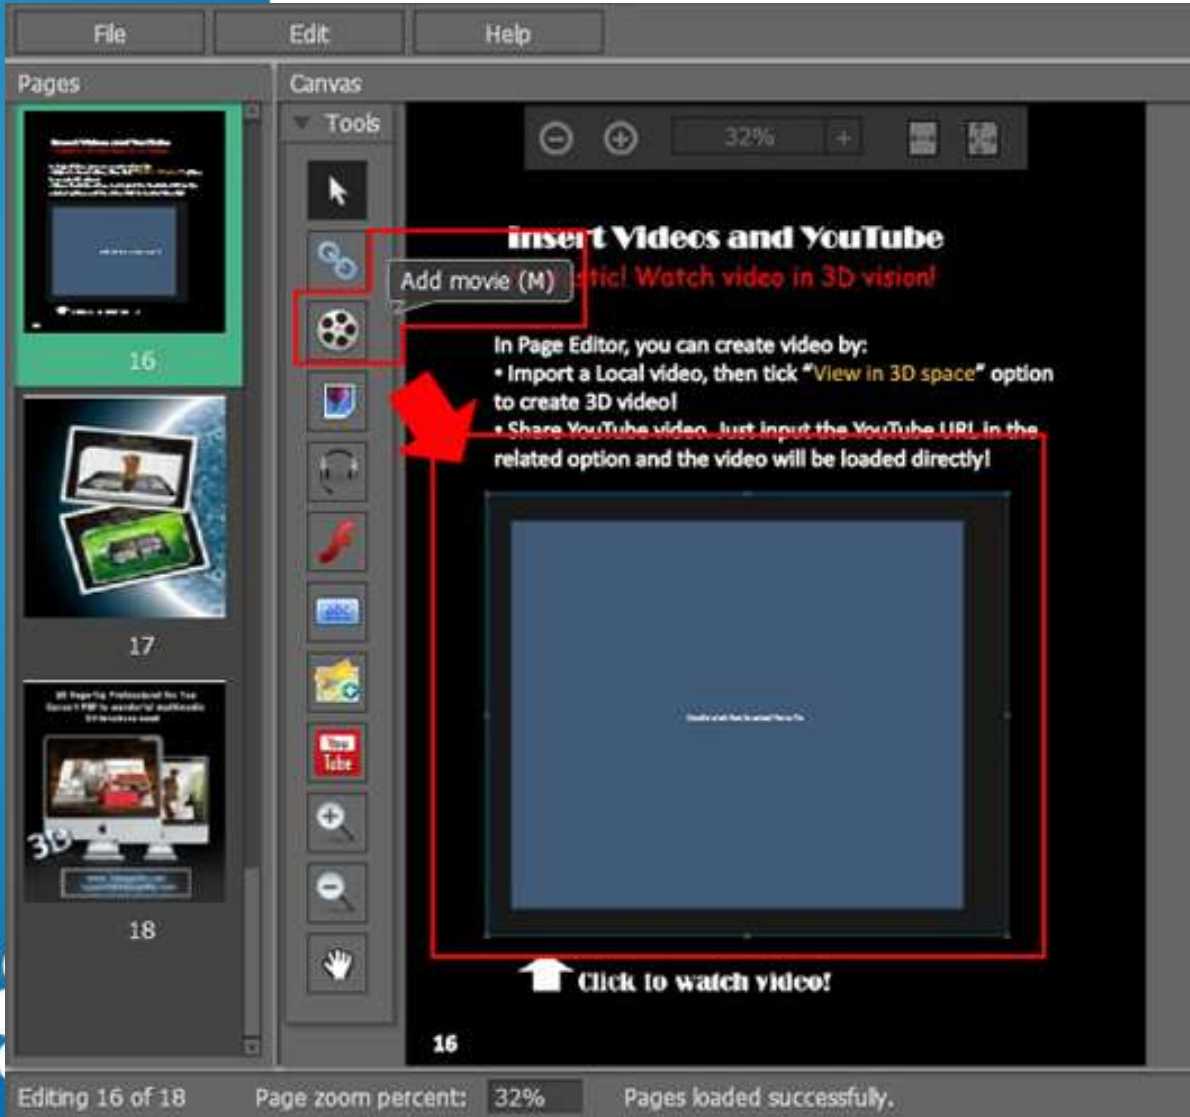

How to???

- Step1:Install and launch [3D PageFlip Professional](#). Import PDF, select template and make some basic designing for the 3D eBook. Click “Page Editor” in the navigation bar for further multimedia page editing.

How to???

- Step2: Choose "Add movie" from the floating bar. Draw an object in the PDF page, as the picture shows you below.

How to???

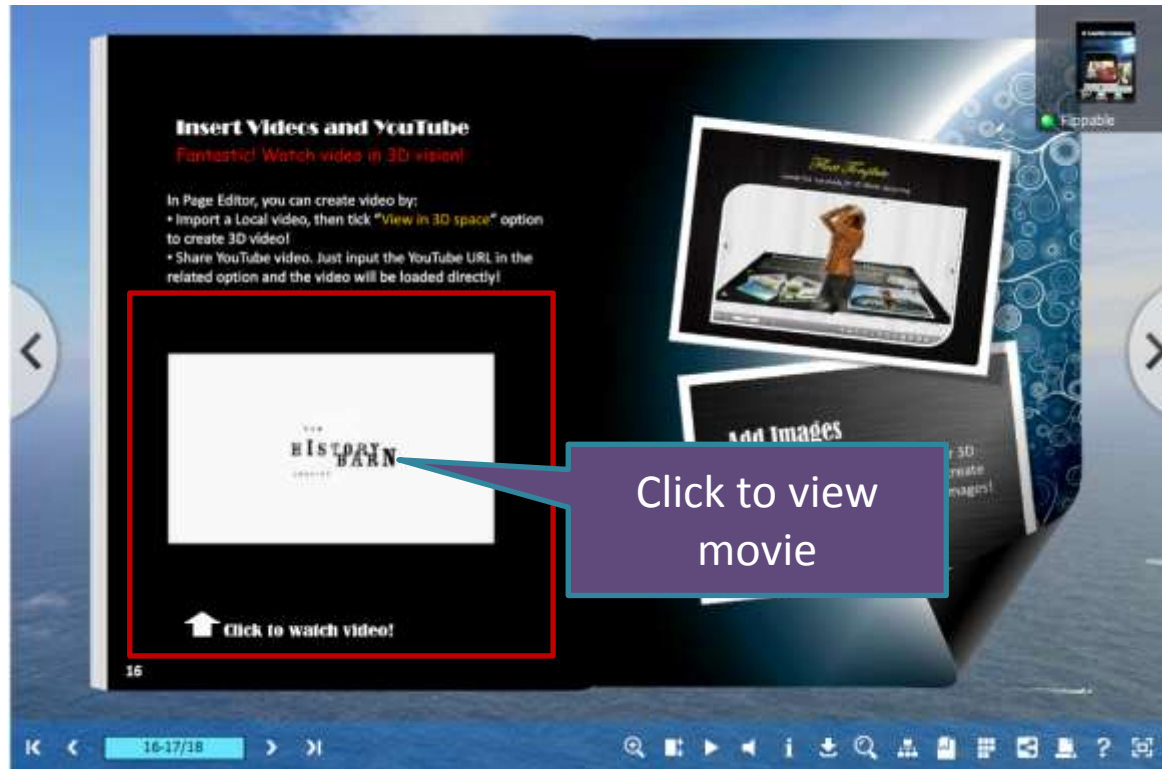

- Step3: Double click to select a video or Click to select from “Properties of Video > Video Path” on the right side. Then tick option “View in 3D Space”.

The screenshot displays the 3DPageFlip software interface. On the left, a canvas shows a page with the heading "Insert Videos and YouTube" and instructions on how to create video. A video player is embedded on the page, showing a 3D wireframe model of a character. A red box highlights the video player, and an arrow points to it with the text "Click to watch video!". On the right, the "Properties of Video2" panel is visible. The "Video Path" field is highlighted with a red box and contains the text "extfiles\1211151". Below it, the "View in 3D Space" checkbox is checked. Other properties shown include x: 141.8, y: 659.85, Width: 894, Height: 685, and Rotation: 0. The "Layers" panel at the bottom right shows "Image3" and "Video2".

How to???

- Step4: Save and exit Page Editor. You will get the effect once you click to play the video. 3D effects will pop-up and you can drag the whole video to spin in 3D scene with 360 degree! Fantastic 3D video in [page flip](#) eBook, isn't it?

Effects

Drag your video to spin 360 degree in 3D panoramic background. You can easily control to play video or stop it by the play button.
