

Plant Liner Comparisons

	EcoLiner™	Coco Liner
Materials	paper mache liner; made from recycled corrugated materials	shredded coconut shells, sprayed with pesticides and latex
Moisture Retention	twice the moisture retaining capacity of the coco liner	poor moisture retention properties
Watering Requirements	50% less watering needed	daily watering is necessary in hot, dry areas
Durability	resists fading caused by sunlight due to natural colorfast pigment dye	weathers rapidly and appears 'blown out' before the gardening season is over
Product Origination	made in the USA	made in China
