FROGGLEZ[®]

Made by my dad[™]

I, Papa Frogglez, created **Frogglez Goggles** out of necessity. My kids struggled with most swim goggles we tried (and we tried a lot!). They were hard to adjust, **too tight, pulled out hair and always slid down the back of the head** resulting in **the ears being pushed out like dumbo** (add TM letter there for Disney). All this effort only for them to fall off right away, and then I have to go through the whole process over and over again. Needless to say, putting on swim goggles was stressful and a battle. Without a comfortable strap you can't have **good fitting goggles**, and without good fitting goggles you get water into your eyes. It's a catch 22 scenario :) **Frogglez Goggles were born** out of this frustration.

Keep Swimming,
Papa Frogglez
