

medisoft®

Get Medisoft with ICD-10 Readiness

Are you ready for the new ICD-10 codes, which take effect on October 1, 2014?

ICD-10 Readiness and More

The transition from ICD-9 to ICD-10 will significantly impact your practices workflow, and Medisoft can help you manage the changes. With Medisoft v19, you can take advantage of several features that are designed to reduce manual entry and minimize the complexity of ICD-9 to ICD-10 mapping. With this release, you will be able to:

- Enter ICD-10 codes on your diagnosis list
- Set the code version by insurance carrier so you can continue to use ICD-9 codes for carriers who will not have transitioned by October 1, 2014
- Receive a notification if the wrong code is used for a carrier
- Use a mapping tool based on CMS's General Equivalent Mappings (GEM) to translate some ICD-9 codes to ICD-10

In addition to ICD-10 readiness, when you purchase today you get all the billing, scheduling and patient accounting enhancements currently available in Medisoft v19, including Medisoft Mobile. With this no-fee application for the iPad® and iPhone®, you can use your phone or tablet to view your schedule and to transmit diagnosis codes and notes to your front desk or biller.

Specific ICD-10 codes can be added through the mapping feature, or you can pre-order the full list of ICD-10 codes which load directly into your Medisoft program, scheduled to be released early in 2014, (includes ICD-9, CPT-4 and HCPCS).

Order Medisoft V19 with ICD-10 Readiness today. Call 888-691-8058 or 941-743-6666

Create ICD-10 Codes

Instructions: 1.1 Mappings Other Mappings

The following ICD-9 codes have more than one possible ICD-10 mapping.
 1. Click a line item in the top grid to see the suggested mappings in the bottom grid.
 2. Select the check boxes for line items to see the suggested ICD-10 codes. You can edit the suggested codes in the New Code field as necessary.
 3. Click Create Selected Codes when you are ready.

 This icon in a line item indicates that the ICD-10 code already exists in your Diagnosis Code list but it has not been linked to an existing ICD-9 code. If you select this line item, this ICD-10 code will be linked to its corresponding ICD-9 code.

Your Code	Your Description	ICD-9 Code	Standard ICD-9 Long Description
<input type="checkbox"/> 034.0	Strep Throat	034.0	Streptococcal sore throat
<input type="checkbox"/> 503	Lead Miner's Lung	503	Pneumoconiosis due to other inorganic dust
<input type="checkbox"/> 692.71	Sunburn	692.71	Sunburn

<input checked="" type="checkbox"/>	R06.89	R06.89 Other abnormalities of b		

Medisoft V19 features a mapping tool based on CMS's General Equivalent Mappings (GEM). Enter an ICD-9 code and Medisoft V19 will provide a mapping to the appropriate ICD-10 code(s), where applicable. This helps you compare and translate data during the ICD-10 transition process.

NOTE: You can also order the full list of ICD-10 codes which load directly into your Medisoft program. Includes ICD-9, ICD-10, CPT-4 and HCPCS codes, scheduled to be released early in 2014.

Diagnosis Code List showing both ICD-9 and ICD-10 codes after you have added them.
