

Online Courses For Any Learning Management System

MMCID has 15 years of experience in creating online courses and training teachers to integrate technology. Our courses can be used as blended courses or as asynchronous courses. All courses include installation into your learning management system and one teacher training.

PD Courses for Teachers

Internet Safety and Cyberbullying for Teachers

Meets the requirement for Internet Safety and Cyberbullying Prevention Training required by the Child Internet Protection Act (CIPA) of 2003, and required for US schools receiving Federal E-Rate funding.

Topics include: The CIPA and Acceptable Use Policies; Email Risks and Safety Tips; Cell Phone & Internet Risks; Cyberbullying: Identifying, Addressing, Reporting, and Preventing; and Other Helpful Resources for Teachers.

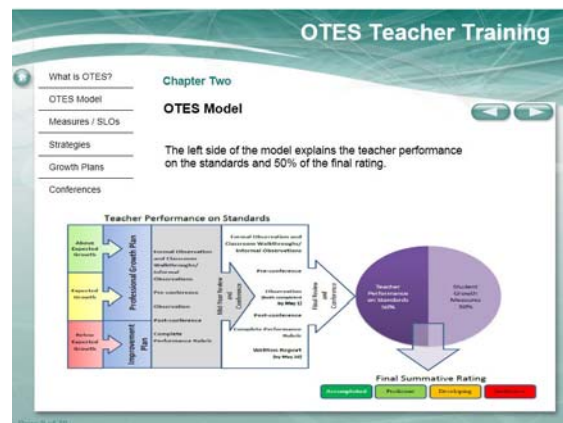

Bloodborne Pathogens

Meets the requirement for Bloodborne Pathogens Training per OSHA Standard 1910.1030.

Topics include: Means of Transmission; Exposure Control Plans; Universal Precautions and Personal Protection Equipment; Proper Hand washing and Glove Removal Procedures; Engineering and Work Practice Controls; Handling and Disposing of Regulated Waste; Communication about Hazards in the Workplace; and Reporting Incidents.

OTES Teacher Training

Provides teachers with the latest information about the OTES Teacher Evaluations required by HB 153. Topics include: Student Growth Measures, SLO's, Evaluation Rubric, Teaching Strategies, Growth Plans, and Conferences. Course includes interactive content, videos, discussions, surveys, tests, and templates.

Intro to Blended Learning

Teaches the basics of Blended Learning and the power of the modern, electronic classroom. Course covers the theory, uses, and cost savings of Blended Learning based on both state and national resources, such as eTech Ohio and the North American Council for Online Learning (iNACOL).

HIPAA

Meets the government regulations for the Privacy Rules requirement of Health Insurance Portability and Accountability Act (HIPAA) of 1996 issued by the US Department of Health and Human Services. Training is required for all those accessing, using, and dealing with health or medical information.

Safety & Violence Prevention

Meets the requirement for Safety and Violence Prevention for all educators per Ohio Revised Code 3319.073.

Topics include: Recognizing changes in Student Behavior and Performance; Roles of School Professionals in Identifying, Addressing, Improving, and Preventing; Communication Skills for Talking to Students; Resources for Responding, and Intervening, Reporting, and Preventing.

Teen Dating Violence

Meets the requirement for Teen Dating Violence that all teachers, counselors, and administrators must take every five years, per ODE Required Curriculum and HB 19.

Topics include: Signs and Causes of Teen Dating Violence; Consequences of Teen Dating Violence; Risk Factors for Perpetrating Teen Dating Violence; Resources for Responding and Intervening; and Prevention Strategies for Safer Schools.

Internet Safety Courses for Students

Internet Safety and Cyberbullying for Grades K-2

Meets the requirement for Internet Safety and Cyberbullying Prevention Training required by the Child Internet Protection Act (CIPA) of 2003, and required for US schools receiving Federal E-Rate funding. Training must be documented, and occurring annually as of July 1, 2012.

Course consists of four interactive, age appropriate chapters that teach about Internet safety, email safety, inappropriate content, and cyberbullying. The course teaches these concepts through videos, games, interactive scenarios. The course has audio on every page to assist in delivering content to early learners and is equivalent to 2 hours of instructional time.

Internet Safety and Cyberbullying for Grades 3-6

Meets the requirement for Internet Safety and Cyberbullying Prevention Training required by the Child Internet Protection Act (CIPA) of 2003, and required for US schools receiving Federal E-Rate funding. Training must be documented, and occurring annually as of July 1, 2012.

Course consists of four interactive, age appropriate chapters that teach about Internet safety, email safety, cell phone usage, inappropriate content, and cyberbullying. The course teaches these concepts through videos, games, interactive scenarios. The course has audio on every page to assist in delivering content to early learners and is equivalent to 2 hours of instructional time.
