## LISA HARRIS BROUGHT ON AS IT SUPPORT TECHNICIAN FOR FEED LEASE CORP.

Feed Lease Corp. is happy to announce the addition of Lisa Harris to their staff of dedicated and committed technicians and employees.

Lisa will serve as an IT Support Technician where she will handle a wide range of responsibilities including maintaining Feed Lease's highly technical environment of Servers, Desktop Computers, SQL Databases, ERP/PDM Systems and Cloud Based Computing Technologies.

Lisa (Ms. Harris) comes to Feed Lease with 20+ years experience servicing IT-driven companies as well as has an Associates Degree in Computer Science and a multitude of technical certifications.

Of the nearly 60 applicants, she was one of three final candidates chosen for this position.

Additionally, Feed Lease was impressed with Lisa's ERP implementation knowledge, SQL Server work and Field Service support experience.

These qualifications gave Feed Lease total confidence in Lisa's ability to maintain and improve system uptime, diagnose and correct computer system issues, continually monitor backup and disaster recovery plans, ensure end user satisfaction, monitor network security and manage critical database environments.

Feed Lease Corp. strives to hire people who have the drive to keep excelling in their area of expertise. They also seek out those who are interested in expanding their skills and capabilities within the organization.

Lisa's experience, unique skill-set and career successes all validate her ability to successfully fulfill the company's IT needs. She is a valued addition to the Feed Lease family.
