DEMAND FOR JURY TRIAL

Comes now the Plaintiff Robert L Reed, *Pro se*, under the authority of Section 1654 of Title 28 of the United States Code, asserts his right to a trial by jury, under the Arkansas Constitution Article 2, Section 7, and makes written demand for said trial and in support states the following.

The issue being brought before the court is a Constitutional Question concerning the Arkansas Statutes regulating Marijuana/Cannabis. This issue is contentious at best and regardless of the findings of the court, opinions both political and public, whether factual or perceived, could be detrimental in nature and directly effect the integrity of the court and the bench. With a jury of the Plaintiffs peers rendering the opinion/decision in this matter it will ensure that the integrity and honor of the Circuit Court remain intact regardless of any public, political or private opinions that may develop.

Respectfully Submitted,
Robert L Reed
