KILLS COVID-19

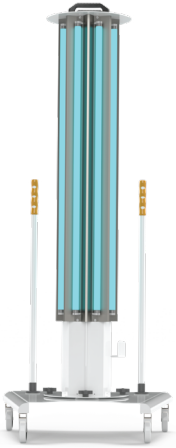

Save money with an **affordable**, in-house solution.

Advanced UVC disinfection kills 99.999% of viruses and bacteria, including Coronavirus, Influenza, Rhinovirus, SARS, MRSA, Staph, Parvo, and many more dangerous pathogens.

SOLUTION

Safely inactivate viruses, bacteria, and other dangerous pathogens with this proven combination of germicidal UVC light and Hypochlorous Acid (HOCl).
Environmentally friendly and chemical free.

Our combined package offers a 99.999% kill rate.

UVC Mobile

UVC light at a germicidal wavelength (254nm) is a proven anti-microbial technology. A 10 x 10 room can be free of pathogens in about ten minutes. Perfect for offices, patient exam rooms, conference rooms, and more.

The UVC light by XtraLight® is L. 30in. x W 20in. x H 5ft and weighs 65 pounds.

Fogger

A simple to use and very effective way to administer disinfectants. Our fogger is both powerful and durable and disinfects a 10 x 10 room in about one minute.

HOCl

Nearly 100 times more effective than bleach, Hypochlorous Acid (HOCl) is perfectly safe for people and pets. It is effective in disinfecting harmful pathogens, including COVID-19.

HOW TO USE:

- Step 1.** Strategically place light in room to be disinfected. A typical 10 x 10 room will take ten minutes.
- Step 2.** Fill fogger with HOCl. Remove light from room and fog air and surfaces. Pay special attention to areas the light didn't reach.
