Creative & Presentation Services

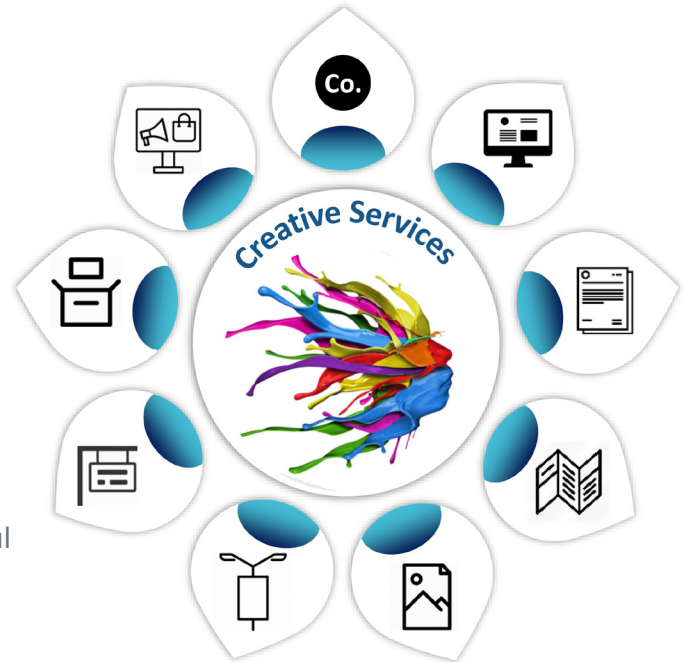

Centelon specializes in creative and presentation support. Visually stunning, clear and concise, their designs follow best practices used by the world’s leading financial firms. From marketing materials to store displays, they will engage your clients with impressive, memorable designs.

For client meetings, training and conference needs, Centelon’s presentation team will engage your audience with impressive, professionally-designed PowerPoint decks. They provide high-quality, impactful graphics that are easy to understand and more effective than words or pictures – and can improve your existing deck with new diagrams and graphs.

Centelon creative services include:

- 3D Animation
- Advertisements
- Brochures & Catalogs
- Desktop Publishing
- Document Conversion
- Illustrations
- Infographics
- Logo and Icon Design
- Presentations
- Product Packaging
- Signage and Store Displays
- Social Media Graphics
- Storyboard Services
- Video Editing

Centelon is a global information technology and digital transformation champion that supports its customers in realizing technology’s huge potential for a smarter and more sustainable world. They harness the power of digital, cloud, analytics, and other emerging technologies to help clients adapt to an evolving world. Centelon is a trusted partner of large and mid-size businesses in financial services, insurance, healthcare, manufacturing and other markets. Vesterras LLC is an authorized representative of Centelon services in the United States.

Centelon professionals provide design and art for just about every creative and presentation need.
